[TRIO DROP-IN BASIN INSTALLATION GUIDE:](#)

1. Prior to installation remove the basin from carton and inspect for transport damages to the basin.
2. Secure the installation template to the counter.
3. Mark out the waste outlet on the counter-top.
4. Cut the required shape as marked.
5. Install waste to the basin.
6. Install the tap-ware to the basin, referring to the tap-ware's individual installation instructions.
7. Place the basin in the cut-out and fix using mildew resistant, silicon of an approved type. Clean away excess silicon from around the basin.
8. Connect the tap-ware to the service outlet and the waste to the trap outlet.
