### FREE STANDING BASIN

WEIGHT OF BASIN:	10.6 kg
BASIN WIDTH:	450 mm
BASIN LENGTH:	450 mm
BASIN DEPTH:	135 mm

The Concept is a free-standing, counter top basin.

### CONCEPT FREE-STANDING BASIN WITH TAP INSTALLATION GUIDE:

1. Prior to installation remove the basin from carton and inspect for transport damages to the basin.
2. Position the basin on the counter-top.
3. Mark out the waste outlet on the counter-top.
4. Cut the required shape as marked.
5. Install waste to the basin.
6. Install the tap-ware to the basin, referring to the tap-ware's individual installation instructions.
7. Place the basin in the cut-out and fix using mildew resistant, silicon of an approved type. Clean away excess silicon from around the basin.
8. Connect the tap-ware to the service outlet and the waste to the trap outlet.
