

Mosaic Edge

The Mosaic Edge profiles are used to protect the vulnerable edges in all tiling environments. This is a versatile product that can be used vertically and horizontally as a feature strip in both wall and floor applications. The Mosaic Edge profiles are available in Anodised Polished Silver Aluminium as per the table below. Anodised and powder coated finishes are not advised for high traffic floor areas.

Code	Height mm	Width mm	Length m
Aluminium			
QEL05A	5	5	2.5
QEL08A	8	8	2.5
QEL10A	10	10	2.5

Mosaic Edge 5mm

Mosaic Edge 8mm

Mosaic Edge 10mm
