

# CAPRI

“People often say that motivation doesn’t last. Well, neither does bathing - that’s why we recommend it daily.”

Zig Ziglar

The most recent addition to the Summer Place range is the Capri. Sharing with your partner or indulging alone in the clean lines of this twin corner bath, the Capri brings Shiatsu massage into the closeness of your own home. The ancient eastern culture of Shiatsu, or “fingertip pressure”, restores and maintains the equilibrium and rhythm of the body’s energy flow through the para spinal muscles and flow channels. Six variable micro jets at either end of the Capri bath provide an invigorating Shiatsu massage. The micro jets can be used alone or in conjunction with the five 90 litre per minute Summer Place Centre Air Jets. An innovative design and technology based approach is clearly evident in the Capri bath.

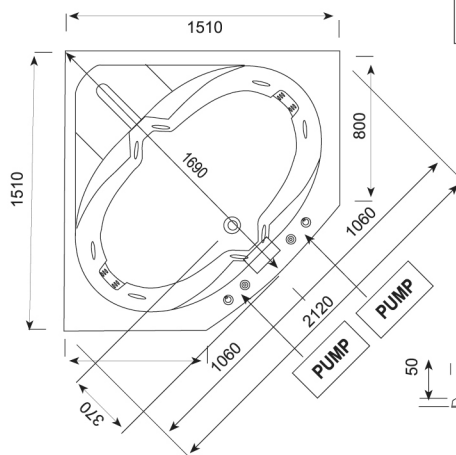

Recessed Hot Seat Shiatsu Massage

## KEY FEATURES
